EDUCATION

King's College London / **BA Digital Media and Culture** *2025 – 2028*

- First Class average; research spans digital-age communication and cognition, quantitative and qualitative analysis of digital services, and interface and interaction design
- Scored 85 on a zine project examining how wearable devices shape self-perception and motivation
- Achieved 70+ in empirical and theoretical studies on AI-generated content, AI companions, Chinese politics in the digital age and digital copyright

Qingdao No.2 High School *2022 – 2025*

- Graduated with an average grade of 93%

EXPERIENCE

Operation Planning Intern / **National Humanities History Magazine, People's Daily** *May – Jul 2026*

- Designed the concept, storyboards and shot language for Exploring Gansu, a three-episode archaeological live broadcast (2–3 hours, 30+ scenes each); plan adopted as the core approach and still in delivery
- Developed the framework for a ten-episode documentary on Chinese food culture and its UNESCO bid, covering themes such as the origins of chopsticks and street-food stalls, with traffic highlights per episode for youth audiences
- Researched the team, production company and comparable titles of Channel 4's Ancient Civilisations by Train (China season), providing key evidence for the central-government submission and approval of a Sino-foreign documentary
- Produced thematic research reports on Hanfu, poetry and other cultural areas, and drafted tourism partnership proposals for Yunnan and Ningde, each outlining five initial projects (ongoing)
- Rewrote product-page copy (2,000 Chinese characters) for four Moon Landing film merchandise items and authored a 2,400-character review of the Haidian Cultural and Art Centre, illustrated with two key exhibitions
- Created a two-minute anti-corruption legal-awareness short drama by combining four AI tools (reference images, video, voice-over, music) and editing the final cut independently
- Managed three to four major projects concurrently each week, delivering ahead of schedule and progressing from copywriting to full cross-media content planning

Teaching Assistant Intern / **Qingdao New Oriental School** *May – Aug 2025*

- Supported nearly 100 high school and university students, with daily study-progress reports, feedback and targeted help
- Graded assignments and assessments and reported progress to parents and supervisors, gaining insight into curriculum design and course delivery

Peer Mentor, Digital Humanities / **King's College London** *2026 – 27 academic year*

- Mentor 12 first-year students through the transition to university, with monthly check-ins on study progress and wellbeing
- Advise on studying, campus navigation and university resources, signposting official support services where appropriate

PROJECTS AND VOLUNTEERING

Hong Kong Baptist University Project / **Data journalism** *Feb 2024*

- Led filming, sound recording and editing within a five-person team, delivering a five-minute profile interview video and a 1,000-word news article
- Studied data journalism and media-industry trends; visited Phoenix Television to learn about its production workflow

Liangshan Teaching Program / **English teaching** *Aug 2023*

- Prepared and taught two-hour English lessons daily for two weeks, using storytelling, three videos and a hand-drawn house layout to teach household vocabulary
- Conducted home visits to two households to understand living conditions and tailor course materials

SKILLS

LANGUAGES

Mandarin (native); English (proficient, IELTS 7.5: Listening 9, Reading 8.5); French (beginner)

PROGRAMMING

Nearly ten years of independent programming; systematically studied Python, HTML, CSS, JavaScript (working proficiency) and SQL (foundational); able to debug and refine AI-assisted code

DESIGN AND VIDEO

Highly proficient in Photoshop, Pixelmator, Figma, DaVinci Resolve, Final Cut Pro, Keynote and PowerPoint, producing content quickly and to a high standard

EDITORIAL AND APPROACH

News editing, creative writing, graphic design, video editing and AI-assisted production; quick to learn new AI tools
